Subject: PU-14-842 Dakota Access - reportable injury #8

Commissioners:

I have received notification this morning from Kathy Moreno (HR representative for Dakota Access), who stated that an employee of CEI (DAPL electrical subcontractor) was injured yesterday (10/17/16) on Spread 9 at the Epping Station tie-in.

According to Moreno, the female employee was injured when a ladder she was standing on slipped, she fell, and the ladder fell on top of her. The individual is currently hospitalized in Bismarck with a fractured vertebra or vertebrae.

Moreno will be calling with additional details later today once more information on the nature of the injuries and circumstances surrounding the incident are known.

Per the Certification to Order Provisions attached to the Order in this case (provision #27, see below), Dakota Access is required to notify the Commission within five business days when an injury to any person occurs.

- 27. Company understands and agrees that it shall advise the Commission of any extraordinary events which take place at the site of the transmission facility, including injuries to any person, or the death of any threatened or endangered species on the site within five business days of such event.**

Thanks,
Julie
